ALUMINUM AEROSOL CANS AND BOTTLES

Leader in developing and manufacturing metal packaging and capping machines. Tecnocap provides innovative and customized solutions to meet the requirements of the world's best known consumer brands.

WHEREVER YOU ARE

Tecnocap's facilities and sales offices are placed worldwide with the aim to be close to our customers, ensuring flexibility and just-in-time solutions.

MORE THAN A CLOSURE

Our commitment goes beyond providing the best quality product. We help our clients succeed by enhancing the identity of their brand and preserving the safety of their product.

INNOVATION

Tecnocap's R&D laboratories provide continuous updates on the latest technological advancements and new regulations, with the aim of constantly improving performance and responding to market needs.

ALUMINUM BOTTLES

THE PERFECT PACKAGING FOR PREMIUM BRANDS

Aluminum bottles are widely used for packaging essential oils, perfumes, flavor fragrances, aroma therapy, chemical products and much more. This packaging solution is perfect for premium and special edition products in the beverage and spirits markets.

Aluminum bottles are light and totally recyclable resulting in an environmentally friendly packaging for organic products. Unlike glass bottles, aluminum bottles are unbreakable and protect the product from light.

WHAT'S GOOD

- ✓ **Premium stylish container**
- ✓ **Suitable with existing filling lines**
- ✓ **High definition of decoration to enhance shelf appeal**
- ✓ **Environmentally friendly, 100% recyclable and 100% reusable**

PRINTING

✓ Up to 6 colors

Special finishes and unlimited design possibilities.

OPTIONS

- ✓ Bright, matte and semi-matte effect
- ✓ Glitter effect
- ✓ Several internal varnishes
- ✓ Brushed aluminum effect

FOCUS ON

ALUMINUM BOTTLES FOR THE BEVERAGE MARKET

Aluminum packaging is perfectly suitable for special edition and “on the go” products of the beverage market. Aluminum bottles let consumers live the experience of a premium product while drinking. Safe and shatterproof, they cool quickly and offer a unique cooling effect when handled. They provide 100% barrier against light and allow drinks to stay fresh longer; they are lightweight (main feature for the e-commerce) and convenient. Thanks to their strong shelf impact, any drink can boost its exclusivity in this premium packaging. Their 360° printing surface enhances brand value.

FOCUS ON

THE MOST SUSTAINABLE PACKAGING OPTION

Metal packaging solutions have the highest recycling rate of any other packaging material. Recycled an endless number of times without losing its physical properties and economically valuable, metal packaging is a real icon of Circular Economy. Tecnocap is proud to manufacture and sell worldwide its “PURE” range of aerosol cans and bottles made of 100% post-consumer recycled aluminium, all certified by slug suppliers.

The most sustainable packaging option to improve brand “green consciousness” and enhance premium appeal thanks to vibrant lithography and custom design.
